

Gender pay gap report

April 2022

Here at Livv Housing Group:

44%

of our colleagues
are female

56%

of our colleagues
are male

Our **mean**
gender pay gap is

-5.8%

compared to the
UK mean in 2022

13.9%

Our **median**
gender pay gap is

3.5%

compared to the
UK median in 2022

14.9%

Here we set out more detail of our gender pay gap and bonus pay gap along with the number of male and female colleagues in each quartile of our pay ranges. Then we explain what we think the reasons are for the differences.

By law, we are required to publish data regarding our mean and median gender pay gap information.

Our **mean** gender pay gap is

-5.8%

The mean is our average pay. This is calculated by adding up all our salaries and dividing by the number of colleagues.

Average Hourly Rate for
a Female is

£18.30

Average Hourly Rate for
a Male is

£17.30

Women's mean hourly rate is 5.8% higher than men's. In other words, when comparing mean hourly rates, women earn £1.06p for every £1 that men earn.

As can be seen from the Pay Quartile distribution (given below) there has been an increase in the number of females earning an hourly rate in the upper half of our pay bands

Our **median** gender pay gap is

3.5%

The median is the middle value in our pay. This value is calculated by organising all of our salaries in order and picking the middle number.

Median Hourly Rate for a
Female is

£15.07

Median Hourly Rate for a
Male is

£15.62

Women's median hourly rate is 3.5% lower than men's. In other words, when comparing median hourly rates, women earn £0.96p for every £1 that men earn.

By identifying the wage of the middle earner, the median is the best representation of the 'typical' difference as it is unaffected by the small number of very high earners.

Pay bands

Below is the summary split of where men and women sit in terms of the quartile pay bands. We listed the salary of every colleague in order and split the list into four equal parts to give us our quartiles A, B, C and D.

Band A Lower Quartile

54 Females / 57 Males

48.6% Female

51.4% Male

Band B Lower Middle Quartile

51 Females / 61 Males

45.5% Female

54.5% Male

Band C Upper Middle Quartile

38 Females / 74 Males

33.9% Female

66.1% Male

Band D – Upper Quartile

53 Females / 59 Males

47.3% Female

52.7% Male

The percentage of females in the Lower Quartile has decreased while there has been an increase in the number of females in our Upper Middle.

Bonus

Here are the number of men and women eligible for bonus, as a percentage of the total headcount.

Number of Females
Receiving Bonus

96.4%

Women's Bonus Pay is

0%

0%

Higher - Mean and Median

Number of Males
Receiving Bonus

96.3%

Men's Bonus Pay is

0%

0%

Lower - Mean and Median

No bonuses were paid.
